

Garden Design Masterplan

- A. Terrace enlarged, new planting beds with low perennial planting backed with low box hedging.
- B. Water feature 1.2 x 1.2m - natural rock water table.
- C. Seating area - timber edged gravel panel with planting of 2 new apple trees - final position to be determined on site with designer.
- D. Proposed house extension
- E. Realigning of existing path following extension.
- F. Extension of existing brick pathway to link garage to house - mostly low planting with emergent shrubs and climbers on garage wall.
- G. Perennial flower border.
- H. New shrub planting to blur boundary
- J. Pergola structure for climbing plants defines visual boundary of perennial border.
- K. Vegetable and herb plot blends into perennial border as in cottage garden plantings - pergola adjacent to vegetable beds to support runner beans etc.
- L. Position of small glasshouse - to be chosen.
